

AGAINST *the* GRAIN

Summer _____ 2009

CUSTOM WOODWORKS

Photos by David Smith Photography

Sewing Room (Clear Maple Countertops with painted cabinetry)

Recent Project: Sewer's Paradise

Customer request: a modern sewing work space with storage for fabric samples and other materials
(Sewing Machines are inset into the countertops and can be removed to create a flush workspace)

ATG Goes Tech - Cabinet Vision by Planit

Cabinet Vision by Planit is a top of the line drawing program enabling ATG to fully automate and integrate its design with clean, detailed project plans; offering you faster delivery time, quicker plan changes and easy to read project plans.

ATG Gives Back

Against the Grain Custom Woodworks contributed to many organizations this summer. La Paz de Dios was excited to receive sponsorship for their monthly luncheon as well as a custom dance floor for their May event, *Sangria on the Southside*. Siskin Children's Institute and Prospect School received special items for Summer auctions benefiting the schools. ATG was one of the many organizations involved at the Normal Park Elementary School Renovation. "I think giving back is something we should all do. It's part of my personal life as well as my business", says owner, Andy Johnson.
